

We are super excited as the Lord, in his grace, allows us to move forward as we serve & prepare for the ministry he has entrusted to us.

In the month of September we were organizing an activity for the school where we have been ministering since August 2018. The activity was to give lectures in each class, dealing with the theme of "The Existence of God". This is important since we have sadly encountered the problem of atheism in many of the students. Thank God the activity was a success and many came to Christ.

We also did a retreat for young people from two churches which had the objective of teaching evangelism methods to 60 young people. The following week we conducted an evangelistic Rally where these same young people took to the streets to share the gospel.

In the first days of October, the Lord gave us the opportunity to make an exploratory trip to Ecuador with the idea of doing a one year internship there with La Fe (Faith Baptist church), through Servant Leaders International. On this trip we were able to meet the leaders of the church in Ecuador which was a great blessing to us. We were able to share our testimonies with the leadership and confirm in our hearts the call of God to go and serve Him in missions. We pray now to return and to minister in Ecuador. It is, without a doubt, a very nice country with very nice people but above all many people who need to hear the gospel. We look forward to the opportunity to serve, learn and prepare for future ministry.

We need your prayers for the next steps, and for God to guide us in the plan of arriving in Ecuador.

Will you also consider being part of our our journey in to serve a missions internship with your financial contribution? You can send a contribution to Servant Leaders International — "Special Projects"
